Landlord Information

MyScreeningReport.com (MSR) is a product of Moco, Incorporated (Moco). Moco was founded in 1989 to provide owners and managers of apartment communities with custom residential screening services. We screen for over 100,000 units throughout the United States. Moco is part of a group of companies which own and manage several thousand rental units throughout the Puget Sound region.

MSR is the industry's first comprehensive consumer initiated tenant screening product. Report quality is excellent. We are especially proud of our public records work - which includes searching alias' and additional jurisdictions based on residence history (disclosed or undisclosed). These "conditional" searches result in 50% more valid (criminal and eviction) hits than comparable static searches. We do the work necessary to positively associate such records with applicants, so there is no guess-work on your part.

To view an authenticated copy of this report, ask your applicant to log on to their account and "Release" the report to you. The system will send a temporary User ID and Password in separate emails to your email address. Copy and Paste the User ID and Password into the corresponding fields on the Landlord Login page for access to the report. Temporary User ID's and Passwords expire after 24 hours.
