Landlord Information:

MyScreeningReport.com (MSR) is a product of Moco, Incorporated (Moco). Moco was founded in 1989 to provide rental property owners and managers with custom residential screening services. Moco is part of a group of companies which own and manage several thousand rental units throughout the Puget Sound region. We are known for quality and exceptional customer service and provide screening services to owners and managers throughout the Unites States.

MSR is the industry's first comprehensive applicant initiated screening product. Report quality is excellent. We are especially proud of our public records work - which includes searching alias' and additional jurisdictions based on residence history (disclosed or undisclosed). These "conditional" searches result in 50% more valid (criminal and/or eviction) hits than comparable static searches. We do the work necessary to positively associate such records with applicants, so there is no guess-work on your part.

To view an authenticated copy of this report, ask your applicant to log in to their account and "Release" the report to you. If you do not already have an MSR account you will need to create one. You can then log in and a new authenticated copy of the report will be waiting in your account for you to view.
